

NATIONAL INFORMATION EXCHANGE MODEL

NIEM is a common vocabulary that enables efficient information exchange across diverse public and private organizations. NIEM promotes collaboration, development, and community support.

NIEM can save time and money by providing consistent, reusable data terms and definitions and repeatable processes.

Common Vocabulary

A Community-driven Data Model

Repeatable, Reusable Process

Information Exchange Development Lifecycle

Flexible and extendable, NIEM enables organizations to move information across organizational boundaries in order to interoperate and act as one, while maintaining the authority of their own existing systems.

GET STARTED

With NIEM, organizations can efficiently share and exchange information irrespective of specific technologies, maximizing the reuse of existing resources.
